FIT2017 Computer models for business decision making - Semester 1, 2011

The objective of this unit is to introduce students to the quantitative modelling techniques commonly used by executives in decision making and the application of IT tools to real-world decision making situations. Techniques covered typically include decision making under uncertainty, linear and nonlinear programming, sequential decision making, forecasting, and simulation. Upon the completion of this unit, the students are expected to recognise a complex decision making situation and to build a corresponding quantitative model. They are also expected to solve the model by applying techniques covered in this unit, to interpret results and finally, to provide analyst-type recommendations. The unit includes extensive use of advanced modelling tools available in Microsoft Excel as well as some VBA programming.

Mode of Delivery

Clayton (Day)

Contact Hours

2 hrs lectures/wk, 2 hrs laboratories/wk

Workload

Students will be expected to spend a total of 12 hours per week during semester on this unit.

- 1 two-hour lecture
- 1 two-hour laboratory
- 6 - 8 hours of personal study per week in order to satisfy the reading and assignment expectations.

Unit Relationships

Prohibitions

ETC2480, ETC3480, ETC4348, ETF2480, ETF9480, GCO2802, MAT1097, BUS1110

Prerequisites

FIT1006 or BUS1100 or ETC1000 or STA1010

Basic knowledge of MS Excel is assumed.

Chief Examiner

John Betts
Learning Objectives

At the completion of this unit students will have:
A knowledge and understanding of:

- the role of business decision making in organisations;
- the decision making lifecycle;
- model building techniques;
- model solving techniques;
- model results presentation and interpretation;
- the role of interactivity in decision modelling;
- popular and leading edge decision modelling tools.

Developed attitudes that enable them to:

- recognise the value of effective decision making within an organisation;
- adopt a critical approach to decision models and their use in a business context;
- appreciate the value of modelling and simulation as effective decision making tools;
- appreciate the limitations of formal decision models and the necessity of post-solution interpretation stage;
- appreciate the risks and benefits of interactive computer-centered decision making.

Developed the skills to:

- create interactive decision models;
- interpret the results produced at model solving stage;
- select an appropriate decision modelling technique;
- assess models limitations;
- analyse appropriateness of modelling environments;
- use Popular and leading edge decision modelling tools.

Demonstrated the communication skills necessary to:

- document and communicate a decision model;
- work in a team during model design and results interpretation stages;
- communicate during, and coordinate the decision making life cycle.
Graduate Attributes

Monash prepares its graduates to be:

1. responsible and effective global citizens who:
   a. engage in an internationalised world
   b. exhibit cross-cultural competence
   c. demonstrate ethical values

critical and creative scholars who:

   a. produce innovative solutions to problems
   b. apply research skills to a range of challenges
   c. communicate perceptively and effectively

Assessment Summary

Examination (2 hours): 60%; In-semester assessment: 40%

Teaching Approach

Lecture and tutorials or problem classes

This teaching and learning approach provides facilitated learning, practical exploration and peer learning.

Feedback

Our feedback to You

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Graded assignments without comments
- Interviews
- Test results and feedback
- Quiz results
- Solutions to tutes, labs and assignments
Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through SETU, Student Evaluation of Teacher and Unit. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash's educational strategy, and on student evaluations, see: 
http://www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Test during lecture 4.

No formal assessment is undertaken SWOT VAC

*Please note that these dates may only apply to Australian campuses of Monash University. Off-shore students need to check the dates with their unit leader.

**Assessment Policy**

To pass a unit which includes an examination as part of the assessment a student must obtain:

- 40% or more in the unit’s examination, and
- 40% or more in the unit’s total non-examination assessment, and
- an overall unit mark of 50% or more.

If a student does not achieve 40% or more in the unit examination or the unit non-examination total assessment, and the total mark for the unit is greater than 50% then a mark of no greater than 49-N will be recorded for the unit.

**Assessment Tasks**

**Participation**

- **Assessment task 1**

  **Title:** Assignment 1
  **Description:** Spreadsheet modelling using linear programming and integer linear programming.
  **Weighting:** 15%
  **Criteria for assessment:** Criteria include:
  - Modelling and formulation
  - Interpretation
  - Presentation
  **Due date:** 15 April 2011
• Assessment task 2

Title: Assignment 2

Description: Decision Tree analysis using Excel and TreePlan

Weighting: 5%

Criteria for assessment:
Criteria include:

♦ Modelling and formulation
♦ Interpretation
♦ Presentation

Due date: 13 May 2011

• Assessment task 3

Title: Tests during class

Description: 4 short tests will cover the material taught in weeks 1 - 12. These will be conducted during lectures 3, 8, 10 and 12, and will each be of approx 20 minutes duration.

Weighting: 10% in total

Due date: During Lecture, Weeks 4, 8, 10 and 12.

• Assessment task 4

Title: Tutorial Participation

Description: Students are assessed on their participation in tutorials.

Weighting: 10%

Criteria for assessment: Participation in tutorials. Completion of class exercises, contribution to class discussions etc.

Due date: All tutorials

Examinations

• Examination 1

Weighting: 60%

Length: 2 hours
Assignment submission

Assignment coversheets are available via "Student Forms" on the Faculty website: http://www.infotech.monash.edu.au/resources/student/forms/
You MUST submit a completed coversheet with all assignments, ensuring that the plagiarism declaration section is signed.

Extensions and penalties

Submission must be made by the due date otherwise penalties will be enforced.

You must negotiate any extensions formally with your campus unit leader via the in-semester special consideration process:

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash’s Education Policies at: http://policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Plagiarism (http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-policy.html)
- Special Consideration (http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.html)
- Grading Scale (http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html)
- Discipline: Student Policy (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html)
- Academic Calendar and Semesters (http://www.monash.edu.au/students/key-dates/); and
- Orientation and Transition (http://www.infotech.monash.edu.au/resources/student/orientation/)
Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at www.monash.edu.au/students The Monash University Library provides a range of services and resources that enable you to save time and be more effective in your learning and research. Go to http://www.lib.monash.edu.au or the library tab in my.monash portal for more information. Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis

- Website: http://adm.monash.edu/sss/equity-diversity/disability-liaison/index.html;
- Telephone: 03 9905 5704 to book an appointment with a DLO;
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1 Gallery Building (Building 55), Monash University, Clayton Campus.
