FIT2071 Algorithms and data structures with C++ - Semester 1, 2011

Following on from FIT1002, this unit introduces the C++ language to students. The unit extends the FIT1002 concepts into more advanced object-oriented programming topics such as inheritance and polymorphism. C++ streams, pointers and arrays, classes, templates and the STL, along with the I/O class hierarchy will be discussed at length. Interactive programming techniques will be used to solve various programming exercises. The unit will give students a deeper understanding of programming and data structures by introducing recursion and dynamic data structures.

Mode of Delivery

Caulfield (Day)

Contact Hours

2 hrs lectures/wk, 2 hrs tutorials/wk

Workload

Concepts will be introduced and demonstrated in the lecture and will be discussed and put into practice during the laboratory time.

- Lecture: 2 hours per week
- Tutorial/laboratory: 2 hours per week

Additionally, each student should spend a minimum of 8 to 12 hours for personal study every week. This includes finishing laboratory exercises, undertaking further coding examples and completing assignment work.

Unit Relationships

Prohibitions

FIT2004, FIT2009

Prerequisites

FIT1002

Chief Examiner

Matt Butler
Campus Lecturer

Caulfield

Matthew Butler

Tutors

Caulfield

Matthew Butler

Elliott Wilson

Learning Objectives

At the completion of this unit students will:

- demonstrate an understanding of the history and concepts of the C++ language and how C++ relates to other commercial languages, especially Java;
- be able to write programs making use of the features and capabilities of C++, comprising: Streams, Pointers, arrays and vectors, Classes, inheritance and polymorphism, Templates and the Standard Template Library, The I/O class hierarchy;
- be able to write programs involving abstract and dynamic data structures, and implement algorithms for searching, insertion and deletion;
- be able to implement algorithms that utilise recursion;
- be able to use files for persistent storage of data.

Graduate Attributes

Monash prepares its graduates to be:

1. responsible and effective global citizens who:
   
a. engage in an internationalised world
b. exhibit cross-cultural competence
c. demonstrate ethical values
critical and creative scholars who:

   a. produce innovative solutions to problems
b. apply research skills to a range of challenges
c. communicate perceptively and effectively

Assessment Summary

Examination (3 hours): 60%; In-semester assessment: 40%

Teaching Approach

Lecture and tutorials or problem classes

This teaching and learning approach provides facilitated learning, practical exploration and peer learning.

Feedback

Our feedback to You

Types of feedback you can expect to receive in this unit are:

- Informal feedback on progress in labs/tutes
- Graded assignments with comments
- Interviews
- Solutions to tutes, labs and assignments

Your feedback to Us

Monash is committed to excellence in education and regularly seeks feedback from students, employers and staff. One of the key formal ways students have to provide feedback is through SETU, Student Evaluation of Teacher and Unit. The University’s student evaluation policy requires that every unit is evaluated each year. Students are strongly encouraged to complete the surveys. The feedback is anonymous and provides the Faculty with evidence of aspects that students are satisfied and areas for improvement.

For more information on Monash’s educational strategy, and on student evaluations, see:
http://www.policy.monash.edu/policy-bank/academic/education/quality/student-evaluation-policy.html

Previous Student Evaluations of this unit

If you wish to view how previous students rated this unit, please go to

Recommended Resources

This unit will require the use of a personal computer and a suitable IDE for C++ development. While Visual Studio for Windows will be used in the laboratory environment, any IDE is suitable for outside development. Copies of the Windows operating system and Visual Studio 2010 may be obtained free of charge from http://msdnaa.monash.edu.au/fit

*Please note that these dates may only apply to Australian campuses of Monash University. Off-shore students need to check the dates with their unit leader.

Assessment Policy

To pass a unit which includes an examination as part of the assessment a student must obtain:

- 40% or more in the unit's examination, and
- 40% or more in the unit's total non-examination assessment, and
- an overall unit mark of 50% or more.

If a student does not achieve 40% or more in the unit examination or the unit non-examination total assessment, and the total mark for the unit is greater than 50% then a mark of no greater than 49-N will be recorded for the unit.
Assessment Tasks

Participation

• Assessment task 1

Title:
Lab Portfolio Submission 1

Description:
This task comprises the first submission of your laboratory portfolio.

Students will be required to compile a portfolio of major laboratory tasks for submission for assessment. Details of each portfolio component are clearly indicated in the laboratory tasks for each week.

This submission contains the weekly folio tasks for weeks 1-5.

Weighting:
10%

Criteria for assessment:
Specific criteria for assessment will be provided on the unit website. Feedback will be provided on your progress to facilitate for improvements in the second set of portfolio pieces.

Late assignments will incur a 5% penalty per late day (including weekends), and may be submitted up to a maximum of 7 days late. After this time submissions will not be accepted without prior arrangement with the unit leader.

Due date:
Wednesday, 6 April 2011

• Assessment task 2

Title:
Lab Portfolio Submission 2

Description:
This task comprises the second submission of your laboratory portfolio.

Students will be required to compile a portfolio of major laboratory tasks for submission for assessment. Details of each portfolio component are clearly indicated in the laboratory tasks for each week.

This submission contains the weekly folio tasks for weeks 6-9.

Weighting:
10%

Criteria for assessment:
Specific criteria for assessment will be provided on the unit website.

Late assignments will incur a 5% penalty per late day (including weekends), and may be submitted up to a maximum of 7 days late. After this time submissions will not be accepted without prior arrangement with the unit leader.

Due date:
Wednesday, 11 May 2011
• **Assessment task 3**

**Title:** Major Programming Assignment

**Description:** Students will be required to complete a major programming assignment, encompassing all concepts covered in the unit. The full assignment brief will be placed on the unit website.

**Weighting:**
20%

**Criteria for assessment:** Specific criteria for assessment will be provided on the unit website.

Late assignments will incur a 5% penalty per late day (including weekends), and may be submitted up to a maximum of 7 days late. After this time submissions will not be accepted without prior arrangement with the unit leader.

**Due date:**
Wednesday, 25 May 2011

---

**Examinations**

• **Examination 1**

**Weighting:**
60%

**Length:**
3 hours

**Type (open/closed book):**
Closed book

**Electronic devices allowed in the exam:**
None

**Remarks:**
As this is the first offering of the unit a sample exam will be made available a month before the examination. Full exam revision will be covered in Week 12.

---

**Assignment submission**

You MUST submit a completed coversheet with all assignments, ensuring that the plagiarism declaration section is signed.

---

**Extensions and penalties**

Submission must be made by the due date otherwise penalties will be enforced.

Returning assignments

Students can expect assignments to be returned within two weeks of the submission date or after receipt, whichever is later.

Resubmission of assignments

Students may not resubmit assignments after the due date has passed.

Policies

Monash has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University's academic standards, and to provide advice on how they might uphold them. You can find Monash's Education Policies at: http://policy.monash.edu.au/policy-bank/academic/education/index.html

Key educational policies include:

- Plagiarism (http://www.policy.monash.edu/policy-bank/academic/education/conduct/plagiarism-policy.html)
- Special Consideration (http://www.policy.monash.edu/policy-bank/academic/education/assessment/special-consideration-policy.html)
- Grading Scale (http://www.policy.monash.edu/policy-bank/academic/education/assessment/grading-scale-policy.html)
- Discipline: Student Policy (http://www.policy.monash.edu/policy-bank/academic/education/conduct/student-discipline-policy.html)
- Academic Calendar and Semesters (http://www.monash.edu.au/students/key-dates/);
and

Student services

The University provides many different kinds of support services for you. Contact your tutor if you need advice and see the range of services available at www.monash.edu.au/students The Monash University Library provides a range of services and resources that enable you to save time and be more effective in your learning and research. Go to http://www.lib.monash.edu.au or the library tab in my.monash portal for more information. Students who have a disability or medical condition are welcome to contact the Disability Liaison Unit to discuss academic support services. Disability Liaison Officers (DLOs) visit all Victorian campuses on a regular basis

- Website: http://adm.monash.edu/sss/equity-diversity/disability-liaison/index.html;
- Telephone: 03 9905 5704 to book an appointment with a DLO;
- Email: dlu@monash.edu
- Drop In: Equity and Diversity Centre, Level 1 Gallery Building (Building 55), Monash University, Clayton Campus.
